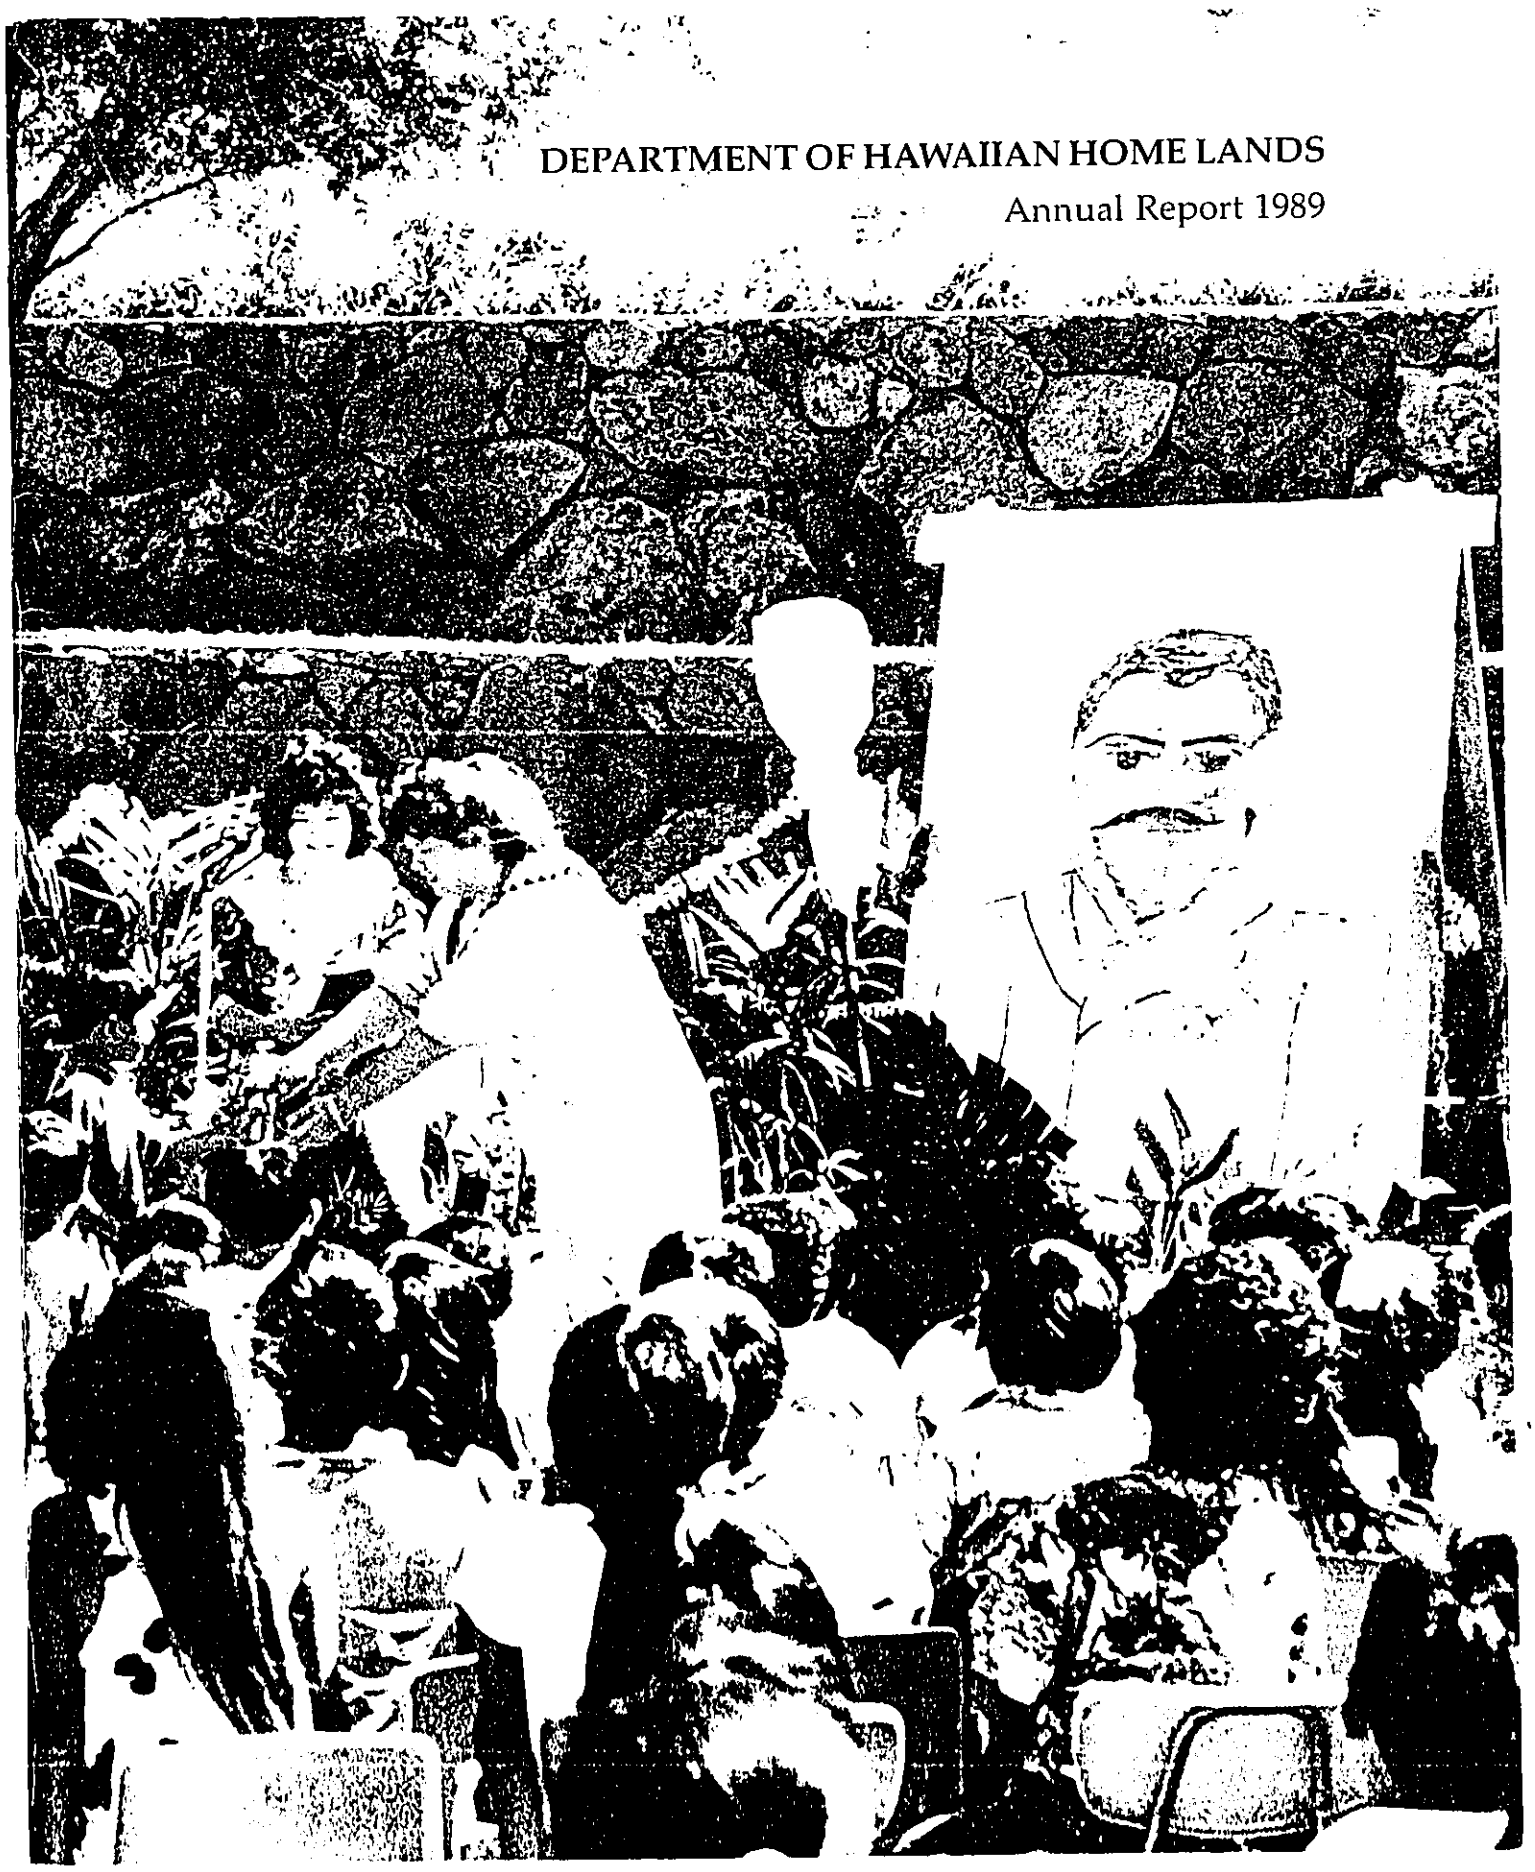
DEPARTMENT OF HAWAIIAN HOME LANDS

Annual Report 1989



The Honorable John Waihee
Governor, State of Hawaii
Honolulu, Hawaii 96813

Dear Governor Waihee:

I am pleased to transmit to you and members of the Hawaii State Legislature the Department of Hawaiian Home Lands' annual report for the fiscal year ending June 30, 1989.

With the continuing support of the Administration and Legislature, the department was able to forge ahead to initiate and manage 19 engineering design and 15 construction projects. The current design projects will provide on-site infrastructure improvements for over 900 awarded and 120 new lots. The construction projects, many of which have been completed or nearing completion during the fiscal year, account for 288 fully improved lots. Of these lots, 155 lots were awarded during the department's acceleration program and 133 lots will be offered for new awards.

Departmental revenues received from income properties increased from less than $1.9 million to more than $3.5 million during the period of July 1, 1988 to June 30, 1989. The increase in revenues is due, in part, to payment of back rentals from the renegotiation of 15 general leases at Shafter Flats Industrial Subdivision. Over 80 percent of the total revenues from income properties are from commercial and industrial general leases which reflect a departmental policy to lease smaller parcels with higher income potential.

An organizational analysis of the department was also completed during the fiscal year. It provided an operational assessment of the department and made recommendations on revising the work flow to improve efficiency and effectiveness. The analysis will become the basis for future reorganization requests.

The department thanks the Administration and Legislature for the continuing support and commitment to native Hawaiians. Working cooperatively, the vision of 'Aina Ho'opulapula will become a reality for native Hawaiians and for all Hawaii.

Respectively submitted,

Ilima A. Piianaia
Chairman
Hawaiian Homes Commission

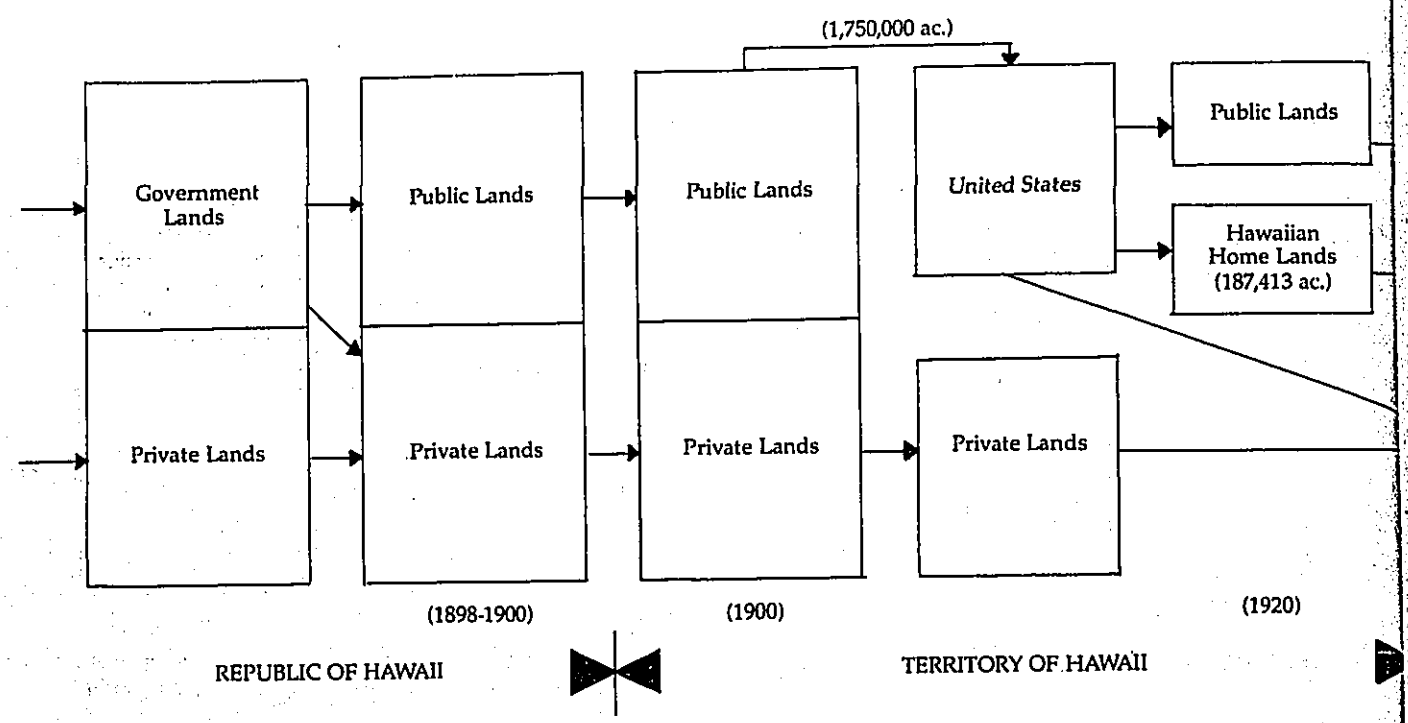
- Constitution of 1940
  - Absolute monarchy became a constitutional monarchy
  - Bi-cameral legislature established
  - Supreme Court established
  - Land ownership of King challenged
- Board of Commissioners (1845)
  - Land titles quieted
- Mahele of 1848
  - Divided land ownership
- Act of July 10, 1850
  - authorized sale of land to resident aliens
- Act of August 6, 1850
  - authorized awarding of kuleana to native tenants

- Constitution of 1852
- Constitution of 1864
- Constitution of 1887

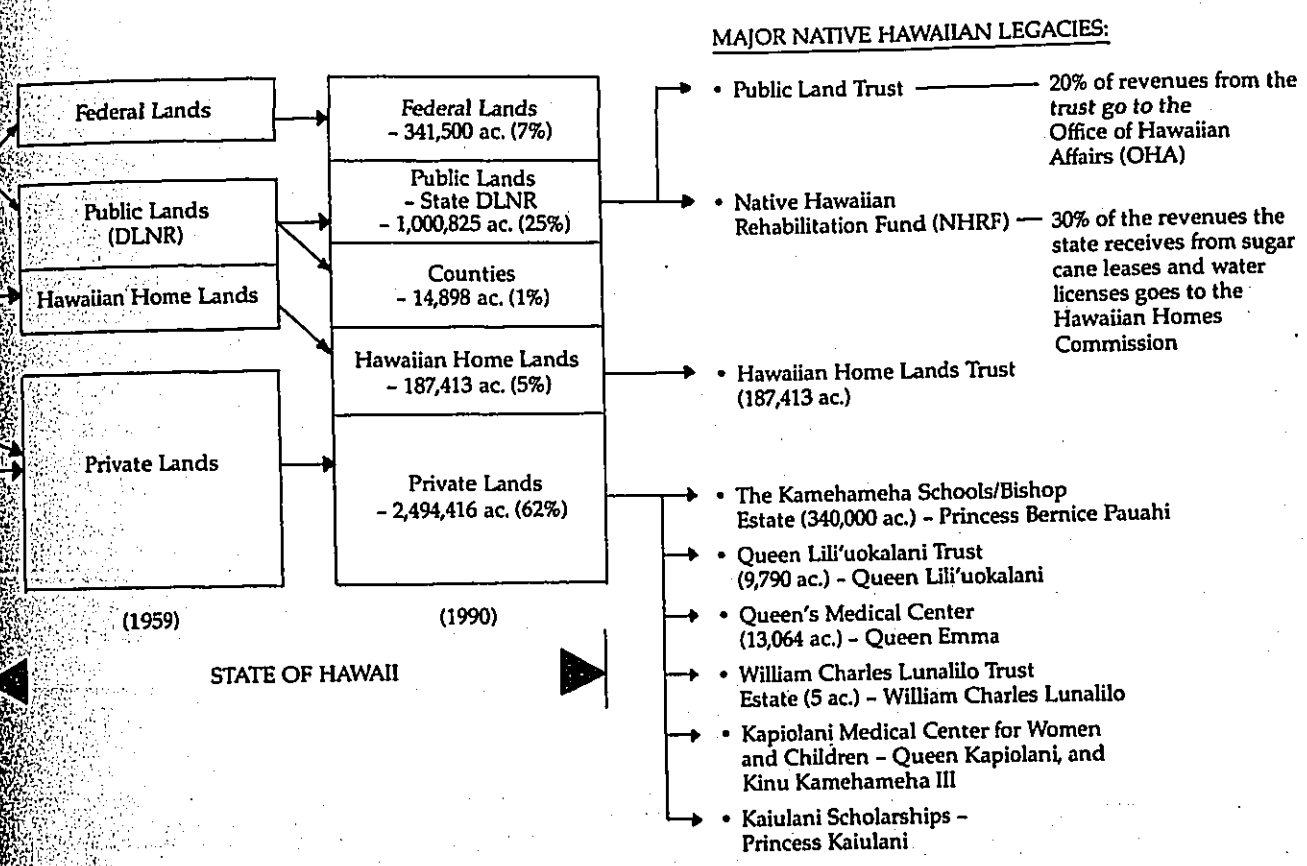
- Provisional goverment formed

- Republic of Hawaii formed



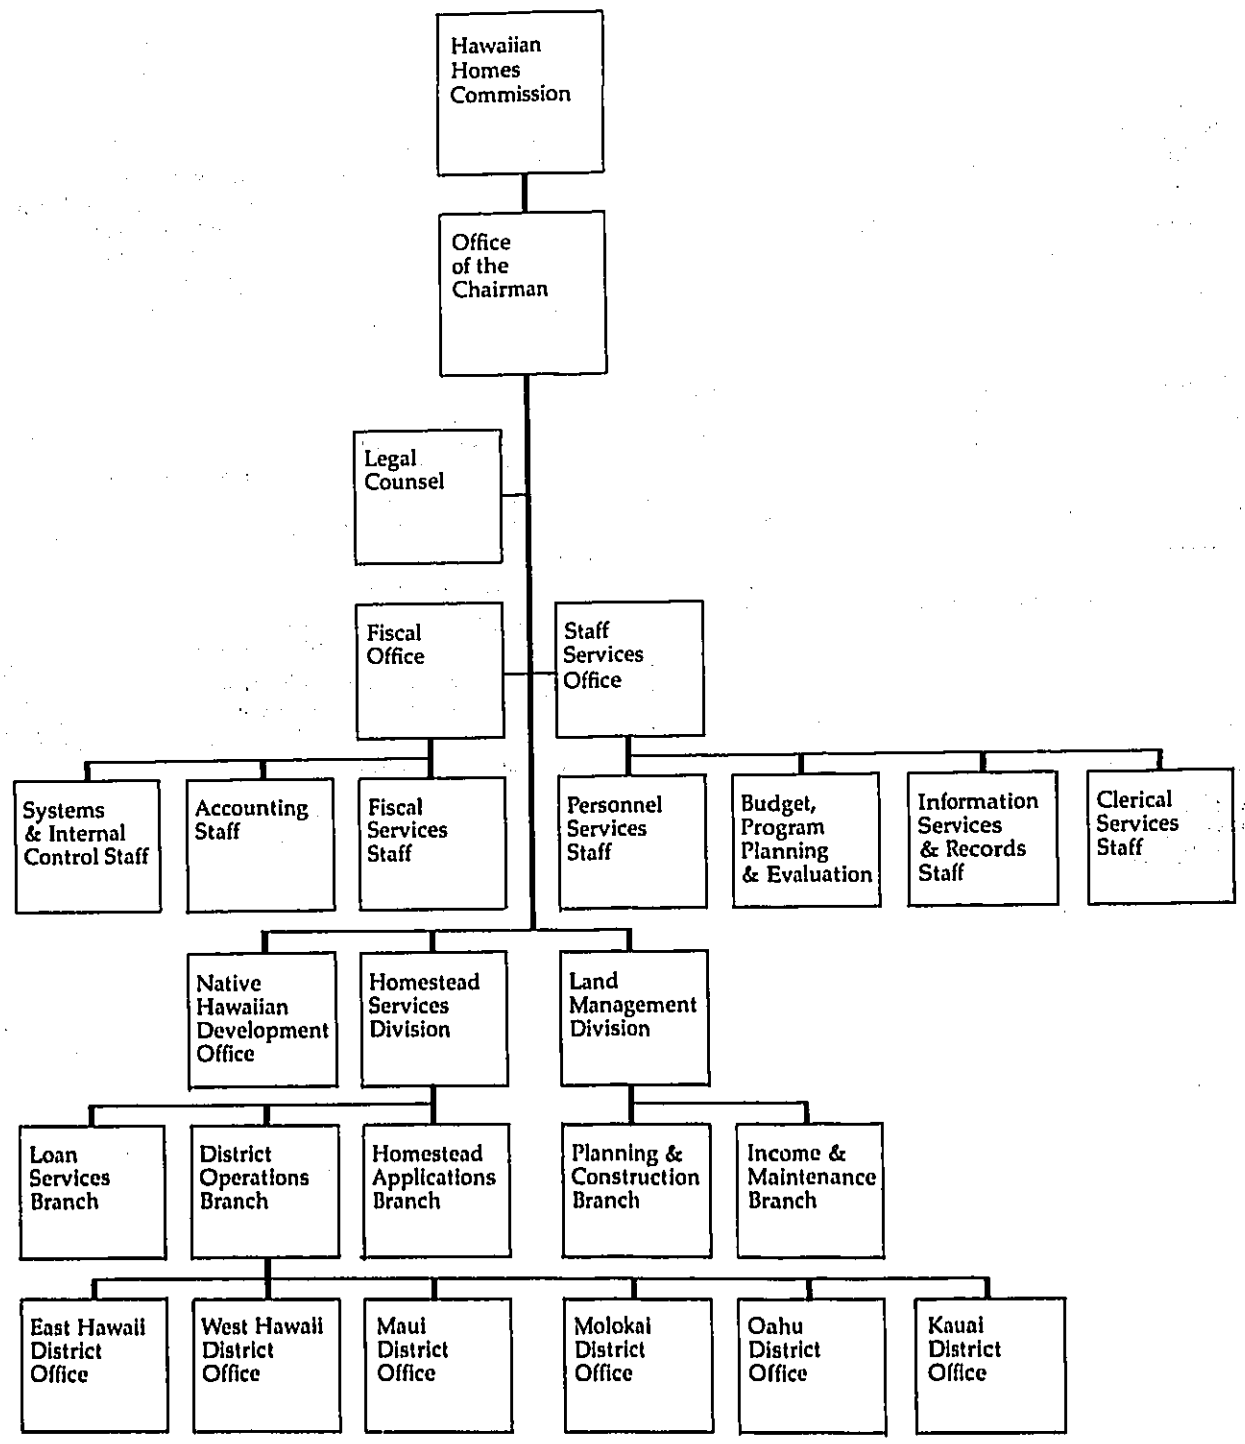
- 1900
- New Lands Resolution (1898)
- Organic Act (1900)

- Hawaiian Homes Commission Act (1920)



MAJOR NATIVE HAWAIIAN LEGACIES:
Federal Lands
Public Lands (DLNR)
Hawaiian Home Lands
Private Lands
(1959)
Federal Lands - 341,500 ac. (7%)
Public Lands - State DLNR - 1,000,825 ac. (25%)
Counties - 14,898 ac. (1%)
Hawaiian Home Lands - 187,413 ac. (5%)
Private Lands - 2,494,416 ac. (62%)
(1990)
STATE OF HAWAII
• Public Land Trust
20% of revenues from the trust go to the Office of Hawaiian Affairs (OHA)
• Native Hawaiian Rehabilitation Fund (NHRF)
30% of the revenues the state receives from sugar cane leases and water licenses goes to the Hawaiian Homes Commission
• Hawaiian Home Lands Trust (187,413 ac.)
• The Kamehameha Schools/Bishop Estate (340,000 ac.) - Princess Bernice Pauahi
• Queen Lili'uokalani Trust (9,790 ac.) - Queen Lili'uokalani
• Queen's Medical Center (13,064 ac.) - Queen Emma
• William Charles Lunalilo Trust Estate (5 ac.) - William Charles Lunalilo
• Kapiolani Medical Center for Women and Children - Queen Kapiolani, and Kinu Kamehameha III
• Kaiulani Scholarships - Princess Kaiulani
• Admission Act (1959)

ORGANIZATION STRUCTURE



HAWAIIAN HOMES COMMISSION

Andrew Apana
Maui
Term: 1987-91

Andrew Apana is the corporate secretary/ treasurer of Miki's Boutique Inc., a chain of fashion stores.

Nani G. Brandt
Molokai
Term: 1988-92

Nani Brandt has been president of Brandt Airlines and a consultant to the former state Department of Planning and Economic Development.

Dennis Kauahi
Oahu
Term: 1989-91

Dennis Kauahi is the Leeward Oahu Unit Manager with the Queen Liliuokalani Children's Center. He fills the vacancy created by the untimely death of John Kamalani in October 1988.

Edison R.K. Keomaka
Oahu
Term: 1988-92

Edison Keomaka is the business manager and financial secretary/ treasurer of Iron Workers Union Local 625.

Alvina K. Park
Oahu
Term: 1986-90

Alvina Park has been a legislative staff member, an aide for the Legal Aid Society, a secondary school teacher, a practical nurse and a long time member of the Hawaiians and the Council of Hawaiian Organizations.

George H. Robertson
Hawaii
Term: 1988-89

George Robertson brings a diverse background of property management and business administration to the Commission. He is with Robertson Estate and Kona Computer.

Walter J. Smith, Jr.
Kauai
Term: 1985-89

Walter Smith is the president of Smith's Motor Boat Service and has been active in various community concerns. He is the Vice-Chairman of the commission.

HOMESTEAD SERVICES DIVISION

The Homestead Services Division (HSD) is the heartbeat of the department. This is where the native Hawaiian's hopes and dreams start and develop. This is where a native Hawaiian is given the opportunity of the use of a parcel of land to satisfy the basic need of shelter (a home to perpetuate the family and a base to increase personal assets) as the native Hawaiian lessee commences on a 99-year affiliation with the Department of Hawaiian Home Lands.

It becomes apparent why this division is the heartbeat of the department when an evaluation of the branches that compose HSD is made.

The Homestead Applications Branch is usually where the initial contact with the department is made. It is here where a native Hawaiian proves his eligibility by providing documentation, affidavits, or genealogical evidence. Other agencies also help applicants in proving native Hawaiian claims. Some of these agencies are: Research and Statistics Office of the State Department of Health, State Archives, Genealogical Services and the Hawaiian data bank of ALU LIKE Inc., Family Court and the Family History Centers of the Church of Jesus Christ of Latter-Day Saints.

Once native Hawaiian proof is established, the applicant selects the desired type of lease award (residence, agriculture or pasture) on the island of his choice. There are no pasture awards on Oahu. Shown on the accompanying chart is the department's application waiting lists as of June 30, 1989.

The department's waiting lists continue to expand at an average rate of 104 applicants monthly. During the fiscal year the number of applicants increased by 1,251. Of the 18,894 applications on file, residential homesteads are in the greatest demand with 60 percent of the applicants expressing interest. Although Oahu, for many years, attracted the most interest for homesteads, statistics now show neighbor island preferences has more than doubled in demand with Hawaii attracting the most applicants.

The Awards Branch of the Homestead Services Division awards homestead leases for 99 years to native Hawaiian applicants on the established waiting lists. At the close of Fiscal Year 1988-89, lease awards totaled 5,778 with nearly 79 percent awarded for residential purposes. Oahu has the highest number of awards with 2,365 leases awarded.

During the acceleration of awards program (1984-87), more than 2,500 homestead leases were awarded. The acceleration program was the result of the need and desire expressed by beneficiaries for the department to offer lands en masse. As a result, most of the homesteads awarded during the acceleration program were undeveloped, raw land. Though leases were awarded, use of these unimproved parcels are delayed until the lots are improved to meet standards of the respective counties.

The acceleration program not only greatly increased the number of lessees, but also created an overwhelming interest in the Hawaiian homes program which resulted in a dramatic growth in the number of applications for

homestead awards.

The District Operations Branch provides direct support and services for the homestead lessees and applicants. Six district offices located on Oahu, Kauai, Molokai, Maui, and East and West Hawaii manage homestead areas and assist in departmental projects in their respective areas.

Some lessee services provided are: lease closings, conveyances by successorship or assignment, lot subdivisions and relocations, and voluntary and involuntary lease terminations. Monitoring the compliance to lease conditions is also a major service provided by the district offices.

The Oahu District Office, aside from providing lessee services, receives and processes requests from neighboring island district offices, and prepares them for final decisions by the Hawaiian Homes Commission.

The homestead program requires adherence by the lessees to lease conditions. Some of the conditions are occupancy, maintenance and security of the lot and improvements; liability and fire insurance coverage; payment of real property taxes commencing on the eighth year of the lease; and active agricultural cultivation and pasturage for farm and ranch homesteads. The program also allows the transfer of lease, subdivision of the leasehold, relocation to another area due to emergency situations and voluntary surrender of the lease.

The district offices also interphase actively with private, federal, state and county agencies in providing and coordinating public services to beneficiaries.

Shown is the homestead lease award report as of June 30, 1989.

The Loan Services Branch administers the department's loan and delinquent loan collection program. The Hawaiian Homes Commission Act authorizes the Department of Hawaiian Home Lands to make loans to native Hawaiians. The program provides loan funds and guarantees to alternative lending sources for the construction, repair and replacement of homes, and the development and operation of farms and ranches. Direct loans come from the department and guaranteed loans come from Farmers Home Administration (FmHA), Federal Housing Administration (FHA), some credit unions, and Small Business Administration. The department's loan portfolio is shown as of June 30, 1989.

Since the outset of the program 68 years ago, the department has been the primary source of loan funds. Instead of having the availability of loan funds dictate the rate of home construction, the department pursued other alternatives to provide additional loan sources.

The FHA loan program adopted August 1, 1987 allows lessees to apply for construction loans for new or replacement homes through local fianancial institutions with long-term loans insured by FHA.

In 1986, the Hawaiian Homes Commission approved the hiring of Hearing Officers to hold contested case hearings for lessees who become delinquent in loan payments. The function of the Hearing Officer is to make recommended Decisions and Orders which may cancel a lease or provide a plan to repay the delinquent amount. Failure to comply with the repayment plan would lead to the cancellation of the lease. On June 30, 1989, there were 64 accounts totaling $1,427,000 under Decision and Orders.

LOAN SUMMARY
($ Thousands)

	Loans Receivable	Total No. of Accounts	Total Delinquent Accounts	% of Accounts Del.	Del. Amt.	% of Amt. Del.
DIRECT LOANS						
Oahu	$21,932	1,092	280	25.6	$6,925	31.6
Kauai	2,066	110	38	34.5	818	39.6

TOTAL LOANS	$45,273	2,201	663	30.1	$15,431*	34.1

Loans past due for two or more payments will show the whole loan balance being delinquent rather than showing the delinquent amount only. The $15,431,000 in loans shown as delinquent are past due for $2,417,000 in installments.

LAND MANAGEMENT DIVISION

Land Development Activities

A process for managing the statewide capital improvement program was developed and enabled the department to identify, rank, select and schedule projects for implementation over a 10 year period.

The priority assigned to projects, which provide infrastructure improvements to unimproved homestead lots awarded under the Acceleration Program, reflects the department's commitment to lessees who selected lots in this program.

Major projects undertaken during Fiscal Year 1988-89 include:

Kauai: Kekaha Residence Lots, Unit 2, on-site improvements for a 21-lot subdivision nearly completed, $630,000; Anahola Residence Lots, Unit 3, on-site improvements for a 40-lot subdivision completed at a cost of $575,000;

Oahu: Papakolea Road improvements completed, $270,000; Nanakuli Residence Lots, Series 5-3, designs for on-site improvements for a 53-lot subdivision, $300,000; Nanakuli Residence Lots, Series 6, on-site improvements for a 38-lot subdivision, $1,094,000; Waimanalo Residence Lots, Unit 6, Increment 2, on-site improvements for a 15-lot subdivision, complete, $630,000; Waimanalo Residence Lots, Unit 7, on-site improvements for a 15-lot subdivision, complete, $680,000;

Maui: Paukukalo Residence Lots, Unit 3, Phase 3, on-site improvements for a 33-lot subdivision nearly completed, $950,000; Waiehu Kou Residence Lots, designs for a 40-lot subdivision, $55,000;

Molokai: Domestic water system upgrade, ladder and pump, $75,000;

Hawaii: Panaewa Residence Lots, Unit 4, on-site improvements for a 50-lot subdivision nearly completed, $910,000.

Planning Activities

The major activities of the Planning Office for the year focused on land development issues and assistance to homestead groups and organizations.

Major archaeological work was initiated or continued to be carried out on department lands at Nanakuli (Oahu), Kula (Maui), Kawaihae (Hawaii), Puueo (Hawaii), Kalamaula (Molokai), Kapaakea (Molokai), and Kamiloloa (Molokai). Biological surveys to identify endangered plant and animal species and their respective critical habitats were also initiated or have been planned for Kawaihae (Hawaii), Kula (Maui), and Hoolehua-Palaau (Molokai). These archaeological and biological studies are essential to doing preliminary planning for land development geared to awarding homesteads.

In addition to these studies, the Planning Office has managed the planning for 166 pastoral homesteads at Puukapu, Hawaii which are scheduled for award in 1989-90; initiated the process to determine how best water resources can be developed at Anahola, Kauai for existing and planned homestead development; and has begun the application process which will bring $1,220,000 in U.S. Department of Housing and Urban Development funds to the department. These funds represent the first federal dollars appropriated to the department since statehood and possibly since the Hawaiian Home Lands program was initiated in 1921.

At the homestead community level, the Planning Office has continued to assist community groups and organizations as requested. The Anahola Hawaiian Land Farms Association has submitted a request to the Administration for Native Americans for financial assistance and the Keaukaha community published its oral history in commemoration of its 65th anniversary; this is the first such publication from any of the homestead communities. Because many of the homestead organizations are presently reviewing their organizational charters and by-laws, the department is also initiating efforts to provide a seminar on such matters and those related to local funding resources in 1989-90.

These efforts have all been undertaken or are being undertaken with the expressed purpose to make it possible for homestead development to occur without destroying those cultural resources on Hawaiian Home Lands and to encourage homestead community associations to become active agents of their respective communities.

Income Producing Activities

The objectives of the Income Property Division are to generate revenues which are used for department programs and to manage department lands effectively. The division is responsible for the following:

• The Property Development Branch undertakes planning and feasibility studies, secures land use approvals and financing, and oversees the development of Hawaiian Home Lands for income purposes.

• The Property Management Branch markets and disposes Hawaiian Home Lands for income purposes. It disposes land for homestead, community and public purposes, and manages lands not covered by homestead leases. The types of dispositions include general leases, licenses for churches, easements, and public improve-

ments, revocable permits and right-of-entry permits.

• The Special Projects Branch identifies and resolves land ownerships issues involving Hawaiian Home Lands, assists in the settlement of outstanding land use and compensation issues, and develops the department's land inventory system.

During this past fiscal year, the Panaewa and Kawaihae economic development plans, that were accepted by the Hawaiian Homes Commission in June 1986, continued to be implemented. The Panaewa and Kawaihae areas on the island of Hawaii present opportunities to realize significant revenues from commericial and industrial uses. The department's request for General Plan amendments involving over 250 acres of land in these areas are under review by the Hawaii County Council. The $1.4 million construction project for the extension of Puainako and Makaala Streets, lot subdivision and improvements to the lands around the Prince Kuhio Shopping Plaza at Panaewa, Hawaii, are about one-half completed. A request to rezone portions of this area to commercial uses will be undertaken after the General Plan amendments are approved.

Capital improvement project funds were released to undertake planning studies at Kawaihae, Hawaii. This will be needed to secure government approvals and undertake development in that area. Planning studies will include an overall Kawaihae town plan, harbor cargo forecasts and land use requirements, an infrastructure master plan, archaeology and ecological surveys. Discussions are continuing with other state agencies and landowners to coordinate the development of our Kawaihae lands with other projects such as the Waimea-Kawaihae Road and a commercial and small boat harbor. The Department of Land and Natural Resources has secured funds and awarded a contract for exploratory well drilling at Kawaihae in order to provide much-needed domestic water for future department developments.

Funds have been delegated to the Department of Accounting and General Services to assist the department in undertaking a structural analysis and certain repairs to the Molokai Recreational Center at Hoolehua, Molokai. The study will provide the basis for detailed designs and construction of improvements to this facility.

As lands designated for income purposes are improved, the division markets these lands under its general leasing program. Since FY 1982, lease rental revenues have increased significantly from approximately $1.3 million to $2.7 million. Almost 80 percent of the total is derived from commercial and industrial general leases on less than 200 acres of Hawaiian Home Lands. The emphasis on general leases of smaller parcels with high income potential is a direction which the department continues to follow.

In the FY 1988-89 period, the division recommended and received approval of the following:

New General Leases	7
New Revocable Permits	6
New Licenses	14
New Rights of Entry Permits	5
Assignments of Leases	9
Consents to Mortgage	15
Approvals of Constructions Plans	5
Consents to Sublease	16
Lease Termination/Surrender	3
Land Exchange Proposal	1

A public auction disposed general leases of five (one-half acre size) industrial lots in the Kaei Hana I industrial subdivision at Waiakea, Hawaii. It resulted in raising additional revenues of $59,000 annually to the department.

The Hawaiian Homes Commission approved the issuance of a 65-year general lease to the Department of Land and Natural Resources for 200 unimproved acres at Waimanu Valley, Hawaii. The general lease allows for the research and preservation of the Waimanu National Estuarine Research Reserve. Another 65-year general lease was approved to the Hawaii Housing Authority for its low income rental housing project at Ho'olehua, Moloka'i. The fair market rents derived from these leases will be established by independent real estate appraisers.

The commission approved a land exchange proposal involving two improved residential house lots situated within the Kekaha Gardens Subdivision, Waimea, Kauai.

As part of its land management responsibilities, the division undertook activities related to appraisals, preparation and execution of legal documents, enforcement of lease, license and permit provisions, follow up on complaints, and analyzing requests for uses of Hawaiian Home Lands.

Land tenure reports covering land ownership issues for nine tracts of Hawaiian Home Lands are at various stages of completion. The reports assist in identifying boundaries at the time of passage of the Hawaiian Homes Commission Act. Work is underway to establish processes to resolve these land ownership issues.

APPENDICES

1989 LEGISLATION

During the 1989 Session of the State Legislature, three amendments were made to the Hawaiian Homes Commission Act, 1920, as amended. The amendments are:

- Act 265 increased the number of commissioners from the island of Hawaii from one to two, making the Hawaiian Homes Commission a nine-member body.
- Act 28 increased the ceiling for loans and loan guarantees for home construction by replacing the fixed dollar amount with a flexible formula for calculating a ceiling for loans and loan guarantees.
- Act 283 enabled DHHL to use revenue bond financing as an alternative source of funding for its Capital Improvements Program projects.

Operating Budget Appropriations

- With the support of Governor Waihee and the 1989 Legislature, an unprecedented $6.3 million in general funds was appropriated for the department's operating expenses for the 1989-91 fiscal biennium.

Capital Improvements Program Appropriations

- The department secured approximately $50.7 million to finance implementation of priority projects in its Capital Improvements Program. Approximately $43.7 million of this amount is by way of revenue bonds.

CIP PROJECTS (ON-GOING)

Capital Improvement Program projects financed by general obligation bonds provide new facilities or increase the value of existing fixed assets.

Summary of CIP Projects

USE	LOTS	AMOUNT
Agricultural	211	5,635,000
Residential	1,596	24,058,000

OPERATING FUND PROJECTS SUMMARY

On July 1, 1986, Act 249, SLH 1986 combined the former Development fund with the former Operating Fund into the present Hawaiian Home Operating Fund. Development Fund Projects have been retitled under the Operating Fund heading. Operating Fund Projects are Capital Improvement Program (CIP) projects financed by Department of Hawaiian Home Lands. These moneys supplement CIP appropriations to improve and upgrade roads and utility systems and to construct site improvements for residential single family, agricultural, industrial and commercial developments.

CONTINUOUS PROJECTS	LOTS	ISLAND	AMOUNT	DESCRIPTION OF PROJECT	STATUS
Major Road Improvements		Oahu	$122,000	Supplement CIP appropriations to upgrade roads and utility systems in Nanakuli to City & County of Honolulu standards	CONTINUOUS
Road Improvements		Statewide	552,200	Road repairs, maintenance and improvements	CONTINUOUS
Drainage Improvements		Statewide	143,800	Drainage maintenance and improvements to alleviate flooding	CONTINUOUS
Water Improvements		Statewide	9,700	Install water facilities	CONTINUOUS
Residential Lot Development	135	Oahu	172,000	Supplement CIP appropriations to construct site improvements	CONTINUOUS
Residential Lot Development	40	Maui	21,900	Supplement CIP appropriations to construct site improvements	CONTINUOUS
Compensation to lessees	39	Statewide	52,000	Compensate lessees for their improvements affected by road and utility system improvements	CONTINUOUS
Consultant Services		Statewide	296,800	Engineering designs, plans and construction	CONTINUOUS
			33,200	Appraisals	CONTINUOUS
			35,000	Legal services	CONTINUOUS
Demolition and removal of existing structures	3	Statewide	16,000	Demolish and remove dilapidated structures for safety purposes	CONTINUOUS
Equipment and supplies		Statewide	56,000	Purchase, lease and/or repair equipment and supplies in conjunction with the development of the lands	CONTINUOUS
Miscellaneous Improvements Homestead Related	672	Statewide	155,700	Repairs and improvements; buildings, access roads, driveways, waterlines, sewer-lines, walls, cesspools, fencing, guardrails, etc.	CONTINUOUS
Survey - Homestead Lots and Boundaries	87	Statewide	37,000	Subdivide, file plans and fees, stakeout, etc.	CONTINUOUS
Water Service (Domestic/Irrigation)	20	Statewide	40,000	Install water laterals to lots prior to award	CONTINUOUS
TOTAL	996		$1,743,300
